## Celebrating Environment Day at Vaidyaratnam

On the occasion of World Environment Day, Vaidyaratnam employees came together to contribute to a greener future by planting saplings across our campus. The initiative reflected our collective commitment to sustainability and preserving nature — values deeply rooted in our Ayurvedic tradition. Each sapling planted is a small step toward a healthier planet, and we're proud of the enthusiasm shown by our team in making this effort meaningful. Let's continue to nurture these green beginnings!
